

HYPERCOURT.COM

HyperCourt.com is a secure web multi-lingual interface into the HyperCourt Solution that will allow **Citizens, Lawyers, Bonding Companies** and other interested parties to **transact business and query online**. This solution has the potential to bring in **more and/or new revenue streams** and **reduce labor expenses** with a combination of free, convenience fees and subscription based services. The components are:

- **eAccess Citizen** – Query and Print Case Information, Ability to Pay a Cash Bond, and “Self” Adjudication Requests such as Continuance, Time to Pay, Defensive Driving or Deferred Payment, in multiple languages.
- **eAccess Lawyer** – Advanced Access and eFile (Electronic filing of court documents)
- **eAccess Bonding** – Electronic execution of Surety bonds

Potential Benefits

- New revenue streams and/or faster collection of revenues
- Possible reduction in labor costs or flexibility to reallocate resources due to less foot traffic
- Automation of the bonding and pleading process with less manual intervention
- Reduced citizen wait times
